Notes:

For the length of the stream and the late start, the numbers look fantastic! 2nd highest in 2023 despite a near 7 hour stream shows incredible consistency despite most likely less European viewers due to 10pm GMT start. The detailed numbers paint a very consistent picture with very little drops and a small raid at the end to spike the numbers!

For the year, Finn's viewer average stands at 4,259, or 4,395 without the NY stream which is incredible numbers!
