Notes:

There were so many things conspiring against this stream hitting over 4k. 9pm start time, 7.5 hour stream, lack of much notice beforehand (30 mins), no big raids like Cotton last time to spike numbers and yet it still hit the magic 4k total, which at this point seems the norm rather than exception. The numbers definitely dwindled towards end of stream but that was expected at 3-4am GMT.

This brings the Jan average viewers to 4,240 or 4,356 without NY stream.
