Notes:

I discounted any part after 5:50am GMT as Finn had raided Roxy and the numbers would not be an accurate reflection of the true average. That being said, the length of the stream definitely caused numbers to be under 4k for the first time since January 13th, but the stream did significantly better than the similar length streams such as the New Year stream and the 13th November 2021 stream.

Finn's average viewership for the year now sits at 4,274, still a record by a long way!
